

## **MAKING THE COMPLEX SIMPLE**

We pride ourselves on delivering simple solutions to complex issues; this maximises access to funds that you require, whilst minimising confusion and time; time which you can spend concentrating on your core business.

**In order to help you spend less time on non-core activities, we have created Capital Manager.**

Capital Manager is our online lease management and asset tracking solution. CSG has engineered progressive financial products to give your business competitive advantage. Capital Manager is one of our initiatives to ensure these market leading products are accompanied by market leading service.

Via our website you can now access our SQL database to view information held in our CRM solution. Updates are visible to you in real-time as changes are made to the database. Our customers benefit from accessing general details on each Lease Schedule and can drill down to identify on which schedule equipment is leased.

#### **Technology Refresh Management**

As a CSG customer you recognise the need to continually evolve your IT systems to maintain competitive advantage. Our Technology Refresh Agreement allows you plan for the long term, without incurring spiralling costs.

Capital Manager allows you to manage Technology Refresh by accessing exact details regarding your Lease Schedules and then identifying which schedules should be upgraded.

At the click of a mouse you can calculate your revised monthly costs and instantly see the cash-flow advantage to your business.

#### **Proposal Tracking and Portfolio Management**

In any successful Vendor Program, instant access to correct information regarding current proposals is vital. Capital Manager allows you to manage your sales pipeline and cash-flow effectively.

Create tailored customer proposals instantly and propose new transactions by entering details directly into our database.

Allow your customers to stay at the forefront of technology and maximise your repeat business opportunities by managing your CSG portfolio via the Capital Manager portal.
