

HELP BEYOND THE PURELY FINANCIAL

No business can afford to ignore its IT expenditure, not only because this is a significant and ongoing cost but because it is fundamental to a business' operation. Procuring IT systems can be complex, involving administrative, accounting and financial input and, in many cases, piecemeal purchasing from numerous supplier. CSG can bring all these strings together to streamline your project.

How we can help

Capital Solutions Group has created a unique product; Project Management Facility (PMF). This manages the whole process of an extended IT implementation smoothly and efficiently, all without restricting your choice of suppliers or products. You are free to agree pricing and delivery with your suppliers comfortable in the knowledge that CSG will be settling all costs on your behalf. Then, when the project has completed to your satisfaction, CSG rolls the costs incurred into one industry leading financing agreement with the all the benefits of a CSG Technology Refresh lease. This simple-to-use solution enables you to see the bigger picture and confidently purchase truly business-enhancing IT, based on a pre-agreed financing product that is both competitive and flexible enough to easily cope with project delays or cost increases.

Cost reduction and control

Our PMF can greatly reduce costs and time for both your IT procurement and accounts staff. The PMF streamlines the administration required by dealing with supplier administration and reducing your bought ledger and accounts payable work, while still allowing you to keep complete control of your procurement process.

With CSG, you don't just get a product; what you receive is a solution that is tailor made just for you; your circumstances, your needs and your budget. And our dedicated account managers will be with you every step of the way. Call us today to find out how we can help your business flourish.
